3rd International Conference

Health Technology Management

6-7 October 2016

The 3rd International Conference "Health Technology Management" aims to bring together researchers and specialists to exchange and share their experiences and research results about all aspects of Health Technology Management. This interdisciplinary forum also provides the possibility for participants to present and discuss the most recent innovations, trends and concerns, practical challenges encountered and the solutions adopted in the field of Healthcare Technology and Management.

In Conference will participate invited specialists and experts from Switzerland, Israel, Romania, Ukraine etc.

The major purpose of our initiative is to contribute to the reinforcement of the four pillars of a modern healthcare, which includes:

- Improved Quality
- Improved Safety
- Increased Cost-Effectiveness
- Increased Access to Care.
